*Our mission is to carry your
goods **safely** across SA.*

VISION

Our aim is to ensure that every client's goods arrive at their desired destinations in a **timely manner**. To reach this goal, our company works hard to keep up with the demands of the transportation industry and **drive innovation**.

WHY US

Punctuality

Punctuality is important for us as a transport company. With the responsibility of keeping a set schedule, we make sure to keep drivers organised and on time. We arrive early so that clients don't have to wait around.

Well-Maintained Trucks

Our trucks are in tip-top shape. Not only are they neat and clean, but our licenses are always up to date and insurance is in place. That way, we can deliver your order on time — no matter where you live — and eliminate any chance of mishaps on the road.

Customer Support

We have cameras inside and outside all trucks, and a 24-hour satellite tracking system that allows us to locate our vehicles at all times. We are always able to provide our clients with an ETA as well as the location of each vehicle, which is accessible online for peace of mind — no more wondering where your goods are!

VALUES

Good Teamwork

We love our drivers and are passionate about creating an environment where drivers can excel and reach their full potential. As a result of this, mistakes do happen — but we've learned to forgive and forget. This has not only helped us build stronger relationships with our drivers but also created a happy, productive team.

Friendliness

We hold all of our drivers to a certain standard and expect them to be kind and courteous. We pride ourselves on the friendliness of all employees, which is why we encourage them to speak with customers frequently during the delivery process.

Empowering the Younger Generation

We don't stand back because we're young. I worked hard to get the company to where it is today, and there were a lot of obstacles to overcome because of my young age when I started in the transporting industry. Because of that, we also employ young reliable people and empower them to learn and grow.

Standing Out

We love standing out from other companies. We're always willing to be innovative and try new things, even if it's different from the crowd.

*Our mission is to get your goods where they need to be, **safely and worry-free**. By using our services, you can have **peace of mind** knowing your products are in the hands of **professional drivers that are both punctual and friendly**.*

ABOUT US

When I was 13, I started driving trucks with my cousin and thoroughly enjoyed it.

Once I matriculated, I planned to go to America for work; and while waiting for approval, I worked at a ready-mix company. After working in America for 9 months, I came back at the end of 2015.

It was after this that I bought my first truck and drove it myself.

Today, my fleet consists of tautliner links, as well as flat deck links. My focus is mostly local, in the Western Cape, but we do long distance/cross border as well.

All our trucks are able to transport up to 36 tons, and our GIT insurance is R1,000,000.00
